

*A noble gift from nature*

- ✓ 100% Swiss
- ✓ Premium quality
- ✓ 100% purity guaranteed
- ✓ Traditional production

The finest selection of Swiss honeys – A noble gift, presented in a luxury box.

Acacia Honey

Mountain Honey

Forest Honey

Now, Dr. Schier has retired from medicine, and became a beekeeper, just as his grandfather. He lives on the shores of Lake Lucerne in Switzerland and produces his own honey – with a 100 % pure Swiss origin.

### Quality and food safety

DR. SCHIER'S production process applies the absolute minimum in technology. Swiss food legislation and Swiss work ethics guaranty its constant quality.

Routinely tested in four independent laboratories, two in Switzerland and two in Germany.

### Bee research

Dr. Schier donates part of his profits to bee research.

### 100% Pure Swiss Premium Honey

Harvested exclusively from Swiss mountain meadows and forests. Nothing is added. Nothing is being taken away. Nothing has been changed.

A noble gift from nature.

### Dr. Schier

As a renowned paediatric surgeon, Dr. Schier used to travel around the world to give lectures and perform operations. During his travels, he found it often impossible to determine the honey's country of origin.
